The Regular Saturday Side-show Before His Honor Judge Wilson.

James Jeffrey was charged with street-begging. He admitted to begging on the streets, but said that he had only asked for a drink of water. Samuel Loewenstein, charged with assaulting Jacob Brauck, was discharged, as nobody appeared to prosecute him.

George Washington (colored) was charged by Maria Bush with disorderly conduct. She testified that George made a terrible rumpus about the purchase of a few cents worth of coal-oil.

"Didn't you throw water on this man, Miss Bush?" asked Washington's lawyer.

"Yes, sir, I did, for the purpose of cooling him off," replied the witness.

"Did it cool him?"

"It did for a while, but after a bit he came back worse than ever."

The Judge fixed the case up by warning all the parties about fussing in the future.

Maria Haynes, a middle-aged woman, was charged with stealing a dress and a fluter from Amanda Haynes. The latter failed to appear and the case was dismissed.

Then a scene between Mrs. Haynes and her female friend took place, which was so affecting that Judge Connelly's eyes moistened, and Uncle George Palmer shed tears as big as marbles.

"What's the matter with all you fellows," said he, "let witness be sworn as he is."

The Clerk administered the oath. "Now," remarked the Judge, "the witness can tell the truth; if he had been sworn without having his hat on, he could not have done it. The testimony in the case was heard, and His Honor disposed of the matter by requiring all parties to give bonds to keep the peace in the future.

John McGraw, for indecently exposing his person to several little girls in the vicinity of Fifth and Butler streets, was sentenced to \$50 and thirty days.

German Emigration.

A Berlin dispatch to the London Standard of the 14th inst., says: "What with conscription, protection, taxation, commercial crises, and war-like apprehensions, emigration from Germany suddenly assumes proportions exceeding anything witnessed for eight years past. In a circular from Bremen I read the astonishing statement that six steamers leaving that port between the 4th and 11th of April conveyed no fewer than 5,800 emigrants. Between the 1st of January and the 11th of April 14,000 were dispatched from Bremen, being half the total number who sailed during the whole of last summer.

"So large a number having embarked in the spring, it is to be anticipated that during the coming summer—that being the principal season usually chosen—the roll of emigrants from the Fatherland will be unexampled. It is to be remarked that the passengers are, as a rule, much better clad than those who left in past years. Emigration to North America on an exceptionally large scale is likewise taking place from Scandinavia. More than 2,000 Swedes have already sailed from Bremen since the close of winter, and on the 4th of April the Lloyd's steamer Hohenstaufen left the same port for Christiania, where 1,000 emigrants, booked for New York, were taken on board."

Interesting to the Paper-makers. [Chicago Tribune.]

Last January a railroad which has a valuable land grant designed printing five million copies of an advertising sheet about the size of the Evening Journal. It was to be in three languages, and distributed gratuitously throughout Europe, with a view of inducing emigration. They sent to this city and New York for estimates for doing the work, but the prices were so much beyond their expectation that the matter was dropped for the time being.

Recently the whole job—printing, furnishing paper, and posting—has been let to a firm in the city of London at a cost of about fifty per cent. of the home bids, and, as a result, the printers have lost the type-setting, the paper dealers have lost the sale of so much white paper, and the Government has lost the postage which it would have received had the papers been printed and mailed in this country. So many papers are being dis-

continued, and so many more diminished in size, that the consumption in 1880 will undoubtedly be twenty-five per cent. less than in 1879. Where are the manufacturers to find a sale for their product? This is a serious matter for them to consider.

\$300 Reward—Catarrh Cure. Some people would rather be humbugged than to get "value received" for their money. Hence it is that such persons run after this and that pretended cure for catarrh, forgetting that Dr. Sage's Catarrh Remedy is so positive in its effects, that its former proprietor advertised it for years throughout the United States under a positive guarantee, offering \$500 reward for an incurable case and was never called upon to pay this reward except in two cases. This remedy has acquired such a fame that a branch office has been established in London, England, to supply the foreign demand for it. Sold by druggists at 50 cents.

UNABLE TO BREATHE THROUGH NOSE. PORTLANDVILLE, Ia., March 11th, 1879. Dr. R. V. Pierce:

DEAR SIR—Some time ago I bought a Douché, some of your Dr. Sage's Catarrh Remedy and Golden Medical discovery and commenced to use them. The aches and pains as well as sore throat and catarrh, from which I have been for so long a time a sufferer, have entirely left me with their use. I feel like a new man as well as look like one. For four years I was unable to breathe through my nose. From the use of the Catarrh Remedy I can now do so freely. Your medicines I know to be all that they are represented. Long live Dr. Pierce and the gentlemen connected with him.

Gratefully yours, WATSON SMITH.
